

Addendum to the Course Syllabus

Course title: **PUBLIC HEALTH**

Code: 106119

ECTS credits: 6

Degree: Nursing Degree, EUI-Sant Pau (UAB)

Academic year: 2025–2026

1. Rationale for the Addendum

This addendum is drafted due to a change in the responsibility and teaching staff of the course *Public Health* for the 2025–2026 academic year. The modification is necessary as a result of the leave of absence of Professor Alicia San José Arribas, who had been assigned as lecturer and course coordinator. In light of this situation, the management has appointed Professor Elvira Hernández Martínez-Esparza as the new coordinator, who will assume both coordination and teaching duties. This modification does not entail any changes to the general objectives or program content of the course, nor to the learning activities and/or assessment system. This change has been validated by the school management and duly communicated to students through official channels (Moodle, institutional email, and class representatives).

2. Introduced Modifications

2.1 Changes in teaching staff

- New course coordinator: Elvira Hernández Martínez-Esparza
- Contact: EHernandezMa@santpau.cat

2.2 Changes in teaching methodology

- No changes

2.3 Changes in the assessment system
